DETAILED ACTION

Allowable Subject Matter

1. Claims 27-78 are allowed (renumbered as 1-52).
2. The following is an examiner's statement of reasons for allowance: many references in the art disclose a detection system for detecting the presence of an image capture device, the detection system comprising an indicator unit in the form of a siren installed in or on the image capture device being configured to emit an indicator signal to alert an operator to the presence of the person, such as found in Everett, Jr. et al. (US 4,857,912). The prior art of record does not teach or suggest, in the claimed combination, a detection system for detecting the presence of an image capture device in the vicinity of a person that includes an indicator installed in or on the image capture device being configured to emit an indicator signal to the person to indicate the presence of the image capture device in the vicinity of the person, whereby a detection of the indicator by a remote detection unit causes the remote detection unit to alert the person of the presence of the image capture device to indicate the presence of the image capture device in the vicinity of the person.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
